## **DETAILED ACTION**

## Receipt Acknowledgement

1. Receipt is acknowledged of the request filed on 6<sup>th</sup> of June 2005 for a Request for Continued Examination (RCE) under 37 CFR 1.114 based on the Application No. 09/672,131, which the request is acceptable and an RCE has been established. Claims 1 and 4 have been amended; no claim has been canceled; and no claim has been newly added since the RCE[2] Final Office Action was mailed on 4<sup>th</sup> of March 2005. Currently, claims 1-3, 6-10 and 13-15 are pending in this application.

## Allowable Subject Matter

- 2. Claims 1-3, 6-10 and 13-15 are allowed.
- 3. The following is an Examiner's statement of reasons for allowance:

With respect to claims 1 and 8, the claim limitations are deemed allowable over the prior art of record as the prior art fails to teach or suggest, respectively, that a first circuit element coupling a filter device and an inverting amplifier; a disabling device coupled to the filter device; an integrating amplifier, the second audio I/O connector coupled between the inverting amplifier and the integrating amplifier; primary audio input disable connection and the first audio I/O connector coupled to the disabling device; and a second circuit element coupling an audio input reference voltage connection between the first circuit element and the inverting amplifier.

The claims 2, 3, 6 and 7 are dependent claims of the claim 1, and the claims 9, 10 and 13-15 are dependent claims of the claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 09/672,131

Art Unit: 2112 Attachment of PTOL-37

Page 3

**Drawings** 

4. The application having been allowed, formal drawings are required in response to this Office

Action.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure.

Frey [US 4,823,093] discloses dynamically biased voltage controlled element.

Mercer [US 5,563,952 A] discloses automatic dynamic VOX circuit.

Chatterjee et al. [US 5,898,340 A] disclose high power efficiency audio amplifier with digital

audio and volume inputs.

Any inquiry concerning this communication or earlier communications from the examiner should

be directed to Christopher E. Lee whose telephone number is 571-272-3637. The examiner can normally

be reached on 5:30am - 2:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark

H. Rinehart can be reached on 571-272-3632. The fax phone number for the organization where this

application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application

Information Retrieval (PAIR) system. Status information for published applications may be obtained

from either Private PAIR or Public PAIR. Status information for unpublished applications is available

through Private PAIR only. For more information about the PAIR system, see http://pair-

direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
